Dr James Carmichael

Associate Professor,
Computer Science
University of Fujairah
United Arab Emirates

Dr James N. Carmichael holds MSc and PhD degrees in Computer Science from the University of Sheffield and his dual research interests lie in the domains of algorithm development for computerised speech processing as well as investigating novel techniques to improve internet-based information retrieval (IR). Currently, Dr Carmichael is collaborating with his alma mater, the University of Sheffield, to implement digital signal processing (DSP) software for the automatic diagnosis of speech disorders.
