

The future of **Online Learning Quality:** *Panellist*

Vis Naidoo

Director,
Southern Alberta
Institute of Technology

Mr Naidoo is the Director, Centre for Continuing Education and Professional Studies, Southern Alberta Institute of Technology (www.sait.ca), Alberta, Canada. He plays a leadership role in building the new Centre designed to deliver applied lifelong learning opportunities, leading to career success.

Before joining SAIT, Mr Naidoo was the Chief Operating Officer at the Quantum Matter Institute, University of British Columbia, tasked with implementing the strategy and building the organization. He also served as the Chief EdTech and Global Officer at Cell-Ed, a mobile learning social enterprise. He played a leadership role in developing and implementing a strategy to take the use of mobile phones for learning (mlearning) globally.

Vis spent much of the past 20 years involved in educational technology policy and applications and developing distance learning education programs in public sector institutions, non-profits and corporations. His work in Canada, South Africa and globally spans industry, non-profit organizations, government, governmental agencies, and education institutions. Vis has served on education Boards in South Africa, Africa, and Canada. He holds a B.Sc., Dip. Ad.Ed, M.Ed. and MBA.
